

Job Designation: Trainee Software Engineer – Development

Job Location: Kochi / Bangalore

We are seeking enthusiastic and talented Developers to join our growing team. This is an excellent opportunity for recent graduates or entry-level candidates to kick-start their careers in software development. The ideal candidate should have a foundational understanding of frontend/Backend technologies and a willingness to learn and grow in a collaborative environment.

Key Responsibilities:

- Participate in the entire application lifecycle, focusing on coding and debugging.
- Troubleshoot and debug applications.
- Learn and adhere to industry best practices and company coding standards.
- Work closely with senior developers and other team members to understand project requirements and contribute to project goals.
- Assist in developing user-friendly web interfaces using HTML, CSS, and JavaScript.
- Work closely with the design team to translate UI/UX wireframes into interactive web pages.
- Participate in code reviews and contribute to improving the codebase.
- Debug and troubleshoot issues to ensure smooth functionality across different browsers and devices.
- Collaborate with backend developers to integrate frontend components with server-side logic.
- Stay updated with the latest web development trends and technologies.
- Participate in team meetings and provide input on project planning and development.

Qualifications:

- B-Tech/BE in Computer science/IT, MCA
- Basic understanding of backend technologies and frameworks (e.g., Java, .Net, PHP, Node.js, Python, etc.).
- Basic understanding of web markup, including HTML5 and CSS3.
- Familiarity with JavaScript and frameworks like React, Angular, or Vue.js (even basic knowledge is acceptable).
- Familiarity with databases (e.g., MySQL, SQL Server, PostgreSQL, MongoDB).
- Understanding of responsive design principles and mobile-first development.
- Understanding CSS preprocessors like SASS or LESS is preferable.
- Understanding of RESTful APIs and AJAX is preferable.
- Understanding of version control systems like BitBucket, Git, etc..
- Strong problem-solving skills and a keen eye for detail.
- Good communication and teamwork skills.
- Eagerness to learn new technologies and methodologies.
- Knowledge of Agile/Scrum methodologies.

What We Offer:

- A supportive and dynamic work environment.
- Opportunities for professional growth and development.
- Exposure to real-world projects and hands-on experience.
- Opportunities for professional growth and career advancement.
- Continuous learning and development opportunities.
- Mentorship from experienced developers and industry experts.
